## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-11 and 16-36, drawn to a method of managing coil feed.

Group II, claim(s) 12-15 and 37-38, drawn to a processing plant.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The two groups share the common technical feature of a continuous in line processing plant which has an inlet section for coil, an upstream accumulator, a processing section, a downstream section with an outlet. The inlet section having two portions between which an intermediate accumulator is located. However such a processing plant is known in the art as exemplified by Greenberger (USP 2,662,271 cited in IDS and ISR- see figures 1 and 2) and therefore the common features of the groups cannot be considered a special technical feature and a lack of unity exists.

3. A telephone call was made to George Oram on February 11<sup>th</sup> 2008 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
